CONCRETE TESTING
(Subject To Change without Notice)

We offer to perform the following concrete and/or soil testing services listed on the schedule below and under the terms and conditions outlined in the following schedule.

SCHEDULE AND FEES FOR CONCRETE TESTING

Item #	Test	Price Method
101	Sieve analysis, fine aggregate, including: (a) Wash tests/ finer than #200 (b) A-bar determination	each
102	Sieve analysis, coarse aggregate, including: (a) Wash tests/ finer than #200 (b) A-bar determination	each
103	Sieve analysis, combination gradation, including: (a) Wash tests/ finer than #200 (b) A-bar determination	each
104	Specific gravity & absorption, fine aggregate	each
105	Specific gravity & absorption, coarse aggregate	each
106	Dry rodded unit weight	each
107	Organic impurities, fine aggregates	each
108	Laboratory produced concrete mix designs	each
109	Compressive strengths, cylinders & cores, including: (a) Curing (b) Capping (c) Breaking	each State project each Local project

304 263-3327 * FAX 304 263-0142

Item #	Test	Price Method
110	Flexural strengths, beams, including: (a) Curing (b) Breaking	each
111	Cylinder molds (24 per case)	each case

FIELD TESTING

Item #	Test	Price Method
201	Concrete sampling & testing, including: (a) Air content (b) Slump determination (c) Unit weight & yield (d) Cylinder molding (e) Beam molding	hour Local project (portal/portal) hour State project (portal/portal)

There is a two-hour portal to portal minimum charge for all jobs.

202	Transporting cylinders, beams	hour
-----	-------------------------------	------

There is a one-hour minimum cylinder pickup charge.

SOIL TESTING

203	Mechanical analysis, gradation only	each
204	Proctor (Optimum moisture & density curve)	each
207	Atterburg Limits (liquid/plastic limits)	each

There is a two-hour portal to portal minimum charge for all jobs.

PLEASE NOTE: The above prices do not include 6% West Virginia State Sales Tax.

TERMS OF AGREEMENT:

1. Notice of testing needs will be given 24 hours before testing time, so that personnel can be scheduled in advance. In the event that the testing personnel have made prior commitments, Potomac Construction Industries Material Testing Division will have to operate on first come, first serve basis. A four-hour charge will be applied for services required with less than a 24-hour notice.
2. Laboratory testing shall be performed on samples delivered to the laboratory by others.
3. If samples must be retrieved from the field, then the field testing hourly rate will apply for operator and vehicle to pick up and return samples.
4. Field-testing includes technician, testing equipment and vehicle charged at the shown rate from time of departure to time of return to laboratory.
5. If any testing is required before 7:00 a.m. or after 3:00 p.m., or more than 8 hours per day or on Saturdays, the rate charges shall be 1 ½ times the regular rate shown. Sundays and legal holidays are at triple time.
6. Charges for services rendered shall be according to the fee schedule; the actual work involved estimates are subject to change by the actual work performed.
7. Full-time testing services, set up in advance, may permit the negotiation of special rates.
8. Invoices not paid 30 days after initial billing will be subject to a service charge of 1.5% per month of the billing.
9. Mix designs prepared by us must be field checked and verified by trial batches. We do not guarantee the results, nor do we assume any liability arising from the use of this data.
10. All designs and testing are performed in strict compliance with ACI & ASTM standards, however, since we cannot control field conditions, we will not be responsible for any liabilities arising from the quality or characteristics of the final product.
